

8 July 1982

MEMORANDUM FOR: Deputy Director for Intelligence
Chairman, National Intelligence Council

FROM: Director of Central Intelligence

SUBJECT: Estimate on Potential Instabilities

Let's put in the works a current estimate on potential instabilities around the world. I would see this as the estimate of a year ago updated to reflect developments since then and looking ahead at the potential impact of the new pressures arising out of recent developments in Lebanon, the Falklands and the Persian Gulf, as well as the increased economic pressures, notably in Mexico, etc.
